Faux Finishes

Oil-rubbed finishes with powder coat base and hand-applied metallic highlights in:

- Bronze on Bronze
- Bronze (on black)
- Pewter
- Copper

Hand-applied highlights are available to mimic rust and verdigris weathering.

Left: Rusty Black (rust color highlight on black base)
 Right: Dark Verdigris (green color highlight on black)

Custom Colors

Custom colors can be selected from our vendor stock colors (including RAL colors). Or, commission a custom mix. Pricing and availability vary.

Not all spiral components are suitable for faux finishes. Typically, these finishes are applied only to square balusters of the spiral railing.

Note: All colors shown are approximate. Your monitor or printer might not produce an accurate representation of the actual color.
